

5th May 2015

ARM Holdings PLC Assurance Statement for annual submission under The Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013, Part 7

Ecometrica conducted a quality assurance exercise to review the scope, methodology, emission factors and calculations used by ARM Holdings to report greenhouse gas emissions for the period **1st January 2014 to 31st December 2014**. Greenhouse gas emissions have been reported in accordance with the requirements of The Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013, Part 7. Ecometrica conducted this quality assurance exercise based on the data, calculations, emission factors and results contained in ARM Holdings' *Our Impacts* web-based software accessed at <https://ecometrica.ourimpacts.com> (v2.5.5).

On the basis of the quality assurance exercise and the review of activities undertaken, nothing has come to our attention that causes us to believe that ARM Holdings' stated greenhouse gas emissions results are not compliant with the requirements of The Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013, Part 7.

A handwritten signature in black ink, appearing to read "Richard Tipper", written over a white background.
